White Rose Crafts and Nursery Sales Limited (Ont. Aug. 20, 1971)
June 20, 2002 – Following review of the company's most recent year end financials, the Board of Directors was advised that its senior lender, The Bank of Nova Scotia (Scotiabank), would not waive the default or commit to further financial support. Based on this information the Board authorized the company to file a voluntary assignment into bankruptcy under the Bankruptcy and Insolvency Act (Canada). PricewaterhouseCoopers Inc. of Toronto was appointed as trustee/manager and all members of the Board resigned.
Aug. 2002 – Newly incorporated White Rose Home and Garden Centres Ltd. agreed to purchase the assets, inventory and fixtures from 24 stores from PricewaterhouseCoopers.

Sept. 2002 – Sale closed on Sept. 9 and the proceeds amounted to approx. \$13,100,000. The remaining seven stores of the chain would be closed following liquidation of stock conducted through Century Services Ltd. By mid-September, all assets had been sold and/or liquidated which resulted in total net proceeds of approx. \$27,400,000. This resulted in a major shortfall for Scotiabank as the company's secured creditor and there would be no funds available for distribution to shldrs. On Sept. 9, Scotiabank lodged with PricewaterhouseCoopers a proposal under the Bankruptcy and Insolvency Act for a payment to be made to all of White Rose's creditors in return for the full release of all the creditors' claims against White Rose. The bank determined that there may be tax losses which may only be utilized by them as it was the major shldr. of the company and in order to do so, the company must be free and clear of all third party claims. Under the proposal, all unsecured creditors with claims of \$1,000 or less would be paid the lesser of \$500 or 50% of the amount of their claim; and unsecured creditors with claims higher than \$1,000 could elect to either reduce their claim to \$1,000 and be paid in accordance with creditors with claims of less than \$1,000 or share in the balance of the proposal funds on a pro-rata basis, to a maximum of 10% of the value of their claim. PricewaterhouseCoopers estimated that the proposal would produce a payment to unsecured creditors of approx. 9.7% of the proven amount of their claim. On Sept. 20, the proposal was approved at a meeting of unsecured creditors and was approved by the court on Oct. 7. As of Oct. 16, all of the proposal's conditions had been met.

Oct. 25, 2002 – First and final distribution by the trustee paid to creditors whose proof of claims had been received and admitted by Oct. 21, 2002. There were no distributions made to shldrs.

YBM Magnex International, Inc. (Alta. Mar. 16, 1994)
Dec. 8, 1998 – Ernst & Young YBM Inc. was appointed receiver and manager. Directors tendered their resignations following allegations of possible illegal activities in the company's eastern European operations. Also in December, shldr. class action lawsuits were filed in the U.S. alleging that the company, auditors Deloitte & Touche LLP, and others, including certain officers

and/or directors of the company, had violated U.S. securities laws.

Apr. 1999 – Plead guilty to criminal charges in the U.S. and paid a \$3,000,000 fine.

Feb. 7, 2002 – Parties to two Ontario class action lawsuits and two Ontario actions initiated by the estate of the company arising out of the company's demise, reached an agreement in principle for an out-of-court settlement under which YBM shldrs. would receive \$85,000,000 and the defendants would release any claims made against the estate of YBM, which would then have approx. an additional \$35,000,000 for distribution to shldrs. with proven claims.

May 2002 – Ontario Court certified the actions as class proceedings, appointed representative plaintiffs and defined the classes as follows; (1) the General Class was each and every person, wherever resident, except certain excluded persons, who, during the period of July 1, 1994 to May 14, 1998, traded in YBM shs. but not including shs. purchased or acquired following YBM prospectus dated Nov. 17, 1997; and (2) the Prospectus Class was each and every person who purchased or acquired YBM shs. following YBM prospectus dated Nov. 17, 1997. YBM shs. included all securities of YBM and Pratecs Technologies, Inc. shldrs., members of either class or both of the proposed classes, had until July 15, 2002 to opt out of the settlement of the class action or to participate in the settlement by submitting a claim in accordance with a distribution plan as approved in May 2, 2002 at a court hearing. Amounts available for distribution were as follows: (a) some of the defendants and third parties to be paid the sum of approximately \$85,000,000 in full and final settlement of all claims; (b) the class member of the Prospectus Class action would be paid \$7,500,000, pro rata, as a priority payment, estimated to be \$0.07 for each \$1.00 of net loss; (c) the class members of the Prospectus Class action and the General Class action would then share in the balance of the monies after payment of expenses and lawyer fees, on a pro rata basis, and including the distributions by the receiver of YBM from the remaining assets in the estate of YBM, which was estimated at \$0.20 for each \$1.00 of net loss; and (d) the amounts in (b) and (c) were only estimates and were made by class counsel without any assumption of liability and actual payments may be substantially different from the estimated amounts depending upon the number of claims received, costs of distribution and the total net losses. Ernst & Young was appointed by the court as administrator of the settlement plan and proof of claims had to be filed by Sept. 6, 2002.

Feb. 11, 2003 – First distribution was made to claimants, with the second and last expected within the year of \$0.097 for each dollar of net loss. On Feb. 11, 2003, the first distribution was made to claimants, with the second and last expected within the year.

Nov. 2003 – Ernst & Young calculated the net loss for the General Class members to be \$351,074,187, with an estimated distribution of \$0.1986 per dollar of net loss and for the Prospectus Class members to be \$78,230,115 with an estimated distribution of \$0.097 per dollar of net loss.
