Introduction

Welcome to **FP Survey - Predecessor & Defunct**, the comprehensive collection of corporate changes which have occurred over the years since 1929 when Financial Post first began its coverage of the Canadian corporate landscape.

First published under separate cover in 1981 as **The Financial Post Survey of Predecessor & Defunct Companies**, this book is a cumulative record of Canadian corporate changes which have occurred over time. As always, the universe of currently active public companies are recorded, in detail, in current editions of **FP Survey - Industrials** and **FP Survey - Mines & Energy**. All current editions in the FP Survey series are published by Grey House Publishing Canada.

Many factors contribute to the numerous changes recorded. Effective dates of these changes often reflect those provided by the stock exchanges or legal dates rather than shareholder or Corporate Registry approval dates. This volume contains details on corporate changes including:

- Amalgamations and mergers
- Acquisitions through purchase offers or share exchanges
- Incorporation changes
- Many once-public companies that no longer exist; others that are inactive shells
- Name changes
- Privatizations through share buy-backs and redemptions
- Receiverships
- Reorganizations
- Reverse takeovers

Information covering such corporate changes for public companies is detailed in this volume. The companies are listed alphabetically and, where available, the description includes the provincial or federal incorporation and date of the charter. The exchange basis of new shares for old is recorded. The solid square which may appear in an entry ■ denotes that subsequent information for the company name shown in the entry is available elsewhere in this book. Multiple corporate actions on each company are dated and grouped under a single company header in chronological order for ease of reading and referencing. Where current information is available on the company or in one of the FP Survey coverages, a note is indicated.

Details of asset distribution on companies being wound up or liquidated are also recorded. Companies for which charters have been cancelled or have been struck off provincial registers are included.

The source of this information is normally the gazettes or bulletins published by the federal or provincial governments. Such companies are not necessarily wound up or dissolved. Under certain circumstances the companies may apply to revive their charter. The time allowed for reinstatement varies from province to province. Further information on the status of specific companies may be obtained from the federal or provincial government under whose jurisdiction the incorporation was granted. Queries should be directed to the government departments listed on page 6.

Coverages are being added continuously to **FP Survey - Predecessor & Defunct** as corporate changes occur. We appreciate your input. If you would like to share your information with us, submit a correction, clarification or improvement, please feel free to contact our office.

Bre-X Minerals Ltd. (Alta. May 30, 1988)
Mar. 26, 1997 – Held rights to develop the Busang property in Indonesia, on which it had reported a major gold discovery. Freeport-McMoRan Copper and Gold Inc., joint venturer, developer and operator of the Busang project, announced that after its due diligence review of Busang, it had found only 'insignificant' traces of gold.
May 4, 1997 – Strathcona Mineral Services Limited, an independent auditor, confirmed findings.

May 7, 1997 – Indonesian gov't transferred all leases held by Bre-X to state-owned PT Aneka Tambang.
May 8, 1997 – Members of the Bre-X Minerals Group announced that they had sought and received court protection under the Companies' Creditors Arrangement Act and the Alberta and C.B.C.A. Several lawsuits were launched against Bre-X, Bresea Resources Ltd. (held 22.36% interest at Oct. 16, 1996) and other defendants claiming in excess of \$3,000,000,000 in damages. Subsequently the Court of Queen's Bench of Alberta appointed PricewaterhouseCoopers Inc. (PWC) as interim receiver and manager.

May 1, 2002 – An amended settlement agreement was entered into to settle all claims, other than trade creditors, for claims issued 12 mths. prior to the agreement date. Under the agreement, Bresea's obligation was to pay \$9,000,000 to Bre-X's trustee and to transfer to Bre-X the 49,000,000 Bre-X com. shs. issued to Bresea. These monies and Bre-X shs. would be held by PWC pending completion or termination of the agreement. Also Bresea would receive for cancellation 800,000 of its own com. shs. held by Bre-X and Bresea would be released from all claims by Bre-X and its past and present shldrs. Completion of the agreement was subject to several conditions, including approval of the courts in Alberta, Ontario and Texas. The termination date, originally July 31, 2002, was extended indefinitely by the Alberta court following approval by the courts of Alberta and Ontario but not Texas.

Sept. 30, 2004 – Agreement closed following approval by the court in Texas.
Feb. 4, 2005 – Bresea (renamed Sasamat Capital Corporation in Aug. 2001) had all claims against it settled. Terms included the release of 49,000,000 Bre-X shs. and \$9,040,000 (\$40,000 int.) to PWC, the repurchase of 800,000 Bresea shs. from PWC and the return to Bresea of certain escrowed funds valued at approx. \$483,500. Also Bresea issued to PWC 655,184 fully paid and non-assessable com. shs. representing 10% of Bresea's outstanding capital. The 10% equity pool was to be distributed by a professional trustee who would process and adjudicate the submitted claims and take custody of the pool from PWC. There were no distributions available for shldrs.

Consumers Glass Company Limited (Can. Oct. 4, 1917)
July 1, 1986 – Name changed to Consumers Packaging Inc. ■

Consumers Packaging Inc. (Can. Oct. 4, 1917)
May 23, 2001 – Order under the Companies' Creditors Arrangement Act (CCAA) obtained, staying proceedings against the co. until June 22, 2001. Toronto-based KPMG Inc. appointed monitor.

Apr. 30, 2002 – Filed an assignment into bankruptcy and KPMG Inc. was appointed trustee. All directors resigned. Virtually all of the co.'s Canadian and overseas assets were sold, satisfying most of the claims made by the secured creditors.

Dec. 20, 2002 – First interim cash dividend to unsecured creditors of 3.5¢ on the dollar was issued.

Jan. 22, 2003 – KPMG filed a proposal under the Bankruptcy and Insolvency Act (Canada) and a meeting of the creditors was held on Feb. 4, 2003. Under the proposal, the claims of the creditors would be settled for the remaining assets and a \$30,000,000 face amount Recovery Note to be issued by the company; the company's capital stock would be reorganized whereby all the shares will be converted into one redeemable preferred share having an aggregate value of \$1; and the company's bankruptcy would be annulled allowing Ol Canada Holdings B.V. to acquire a restructured Consumers Packaging (which will be free and clear of any claims of the creditors other than the claims of KPMG under the recovery note). The amended proposal would provide for possible payments to the unsecured creditors of up to 9.1¢ on the dollar compared to 6.9¢ on the dollar in bankruptcy.

Apr. 29, 2003 – Restructured Consumers Packaging was continued under the Nova Scotia Companies Act. All the terms of the amended proposal were completed, annulling the bankruptcy. Remaining assets of the company were

vested with KPMG and the company's common and preferred share capital was cancelled.
Apr. 30, 2003 – Consumers Packaging amalgamated with OI Canada to form Amalco. Future dividends were dependent on recoveries under the Recovery Note, repayable on a sharing formula of the net benefits derived from utilization of tax loss attributes held by Amalco. The Recovery Note expires in 10 years. It was unlikely that there would be monies available for distribution to shldrs. after unsecured creditors received 100% of their claims.
